Get Your 2018 Nebraska Child Care Fact Sheets

The 2018 annual Nebraska Child Care Fact Sheet from the National Child Care Aware organization has been published. These 1–2 page mini reports highlight relevant child care supply and demand statistics, the breadth and type of child care referrals managed by the Nebraska Department of Education and the status of Nebraska’s Quality Rating and Improvement System (QRIS). Every state has its own unique child care landscape—this fact sheet provides a snapshot of what’s going on in Nebraska. It is a brief, yet valuable, resource to take with you when you talk to your state, local, or federal legislators. View the Fact Sheet Here

CACFP Focus

A Newly-Published USDA Study Highlights the Benefits of the CACFP (Food Program)

The Child and Adult Care Food Program (CACFP) Sponsor and Provider Characteristics Study

In fiscal year (FY) 2015, the child care component of the CACFP included more than 178,000 child care providers who served 1.9 billion meals and snacks to an average of 4.1 million children each day. About one-quarter of the meals served to these children were served in homes; three-quarters were served in centers. Recently released is a study about the characteristics of the sponsors and providers which serve the program.

Here are a few highlights: Sponsors strongly agreed these are the top benefits of the CACFP:

1. Provides nutritious meals to children
2. Helps parents learn the importance of healthy eating habits
3. Helps children develop healthy eating habits
4. Helps teach providers how to plan and prepare nutritious meals

Providers agreed that the top benefits of participation are:

1. Helps children develop healthy eating habits
2. Feeds children who otherwise have limited access to food
3. Helps teach providers how to plan and prepare nutritious meals
4. Helps lower the cost of child care for both providers and parents

True or False?

Parents should start cleaning their child’s teeth as soon as the first tooth appears.

[ ] True [ ] False

Answer on following page
What Children Can Learn from Family Style Dining

Because young children do not have fixed eating habits, your child care setting is a good place for them to develop specific ideas about what foods they want, and when they want them. To maximize the benefit of this “domestic setting”, family-style dining not only emphasizes the planning and preparation aspects of healthy meals, but also establishes healthy eating schedules.

Children benefit from family-style dining in the following ways:

**Family-style meals reinforce social skills**
- Taking turns
- Passing food to others
- Saying please and thank you
- Helping to set the table for their friends

**Children practice serving skills**
- Children practice fine and gross motor skills to serve and pass food.
- Children learn appropriate meal time behaviors like serving without touching food.

**Children feel in control of their eating**
- Children learn not to eat out of the serving dishes or off serving utensils.
- Children may take small servings of food and additional food later in the meal.
- Children may choose not to take a food initially, but change their minds as the meal proceeds.
- Children feel confident that additional food will be available throughout the meal.

**Indirectly encourages them to try new things**
- Children who feel in control of their eating are more likely to try new things.

**Children take approximately the amounts of foods they’ll eat, decreasing the amount of waste.**

**True or False?**

Answer (from previous page):
True. As soon as the first tooth appears, wipe teeth every day with a clean, damp cloth. Switch to a small, soft toothbrush as more teeth come in.

**Homes Area Representative**

Where did you grow up and what kind of a child were you?

I grew up mostly in the Midwest area, with graduating from high school in O’Neill, NE, and getting my BS at SDSU in Brookings, SD. I lived in 6 different states before the age of 18! What kind of child was I? Hmmmm, I was a fairly good kid. Adjusted and made new friends easily considering how often we moved...I excelled in school with graduating high school in the top 8 in my class.

Where did you go to school and what was your favorite subject?

I graduated from high school in O’Neill, NE, but did spend my first 2.5 years of high school in Hot Springs, SD. My favorite subjects in high school were social studies, government and band. I went to SDSU for college graduating with a BS in hotel/restaurant/institutional management with a minor in business economics. My favorite subjects in college were business law, hospitality law and food science. I finished college with a GPA above a 4.0.

Where do you fit in your family's birth order?

I am the baby of my family. I have an older brother (6 years older), and an older sister (4.5 years older).

My work experiences before Midwest were in the tourism industry in South Dakota. Several years as the Administration Assistant for the Juvenile Diabetes Research Foundation (JDRF) in Omaha. I was also the Administration Assistant for Interiors Joan & Associates also located in Omaha. Finally, for the last 12 years I operated my in-home childcare and pre-school business.

Tell me two of your pet peeves.

Tardiness and people being unkind (life is too short to be cruel)

What are three words you would use to describe yourself?

My three words are compassionate, positive, outgoing

What do you think are three best skills you bring to Midwest?

The three skills I bring to Midwest are relatable, efficient and optimistic
According to a recent survey, 68% of for-profit child care organizations ranked labor as their top risk. 65% ranked talent and recruitment as their top priority.

As you know from your own experiences, child care has a nearly 40% turnover rate, that is according to a recent Childcare.net evaluation of the industry.

In an article “Cost of Employee Turnover,” Forbes Magazine suggests for a high turnover, low-paying position the cost of turnover is about 30 - 50% of the annual salary. So, if we use that formula and apply it to a teacher who makes $24,000/year, the turnover rate for replacing that one teacher would be $9,600. ($24,000 times 40% = $9600)

Let me ask you a question, how many teachers, aides, cooks, drivers do you employ? Now take 40% of that number to see what your estimated turnover rate would be for a year. Then multiply that number by each turnover's annual salary by 40% to get an estimate of your total cost.

If a staff person is doing a good job – how much are you willing to spend to keep that person involved, committed and happy in the workplace before you let them go, or they find a different place to work? Ninety-six hundred dollars?

Well, its here!
This shopping list program will allow you to pick a week from the cookbook (Summer, week 1 for example) or to load your own selections from the cookbook. You then choose the number of children you want to feed and with the push of a button you have your shopping list for the week.

The price for this program is $3.99/month. (Approved CACFP expense)

Remember last spring when Chef Marshall (MN) presented his workshop and Midwest distributed his “Look & Cook” cookbook to all the participants? Since then many of you expressed an interest in having an online shopping list tool that when you pick your week of recipes and put in the number of children you serve the program would produce a shopping list for that week.

With Look & Cook planning your meals and the L&C Shopping List Program creating your shopping list, your life just got a lot easier. Learn more at www.childcaremealplan.com

**Remember!**

Due to Midwest

**When?**

Mid-month and End-of-month

1. New Enrollments & IEF
2. Menu Production Records
3. Infant Production Records
4. Weekly Attendance and Meal Counts Sheets
5. Copies of Receipts/Invoices
6. Parents Sign-In & Out Sheets
7. Monthly Income/Expense Report
8. Employee Time Certification (Labor Sheets)
9. Title XX Payment Document

**USDA Nondiscrimination Statement (2017)**

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, sex, disability, age, or reprisal or retaliation for prior civil rights activity in any program or activity conducted or funded by USDA.

Persons with disabilities who require alternative means of communication for program information (e.g. Braille, large print, audiotape, American Sign Language, etc.) should contact the Agency (State or local) where they applied for benefits. Individual who are deaf, hard of hearing or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, (AD-3027) found online at: http://www.ascr.usda.gov/complaint_filing_cust.html and at any USDA office. Or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: 1) Mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410 2) Fax: (202) 690-7442; or 3) Email: program.intake@usda.gov
